

## **EXPERIMENTAL RULES - ORK VEHICLE UPGRADE**

### **GROT BOMB LAUNCHA . . . . . 20 pts**

A Grot Bomb is a guided missile, only it is not guided by targeters or a machine spirit, but a single Gretchin pilot. The Gretchin sacrifices himself to aim the missile, whether this is a punishment or a reward from his Ork masters is unknown, but it is possible that Ork Mekboys do not make the pilot fully aware of the fatal effects of detonation.

Each Grot Bomb Launcha can only be fired once per game. Once the missile is launched it may not be fired again.

Most commonly the launcha ramp is mounted on the back of an Ork Wartrak, but a Grot Bombs launch ramp can also be mounted on a vehicle, allowing it to fire a single missile.

The Grot Bomb works exactly the same way as a normal guess range weapon, except you may re-roll the scatter dice if you don't like the first result, but you must accept the second roll.
