## CENTAUR ARTILLERY TRACTOR v1.0

The Centaur is a small utility vehicle and towing tractor, used to move guns, ammunition and men about the battlefield. It is not a frontline combat vehicle although it does have limited armour protection. It is most commonly used as a gun tow. As well as pulling a gun, it also carries its crew and a small store ammunition.

	Front	Side	Rear	BS	PTS
<b>Centaur Artillery Tractor</b>	11	10	10	3	45

**Type:** Open Topped, Fast.

**Crew:** 2 Imperial Guardsmen

**Weapons:** Heavy Stubber

**Options:** The Centaur may take the following vehicle upgrades from Codex: Imperial Guard. Camo-netting, extra armour, mine sweeper, rough terrain modification, searchlight, smoke launchers, track guards.

**Transport:** A Centaur can carry up to 5 men and tow one gun.

**Transport Option:** A Centaur is a transport option for an artillery battery.

### SPECIAL RULES

**Artillery Tractor:** When used as a tractor to tow an artillery piece the Centaur is no longer a fast vehicle. It moves as normal vehicle when towing a gun.

**Gun Deployment:** The towed guns are deployed and hitched-up to the Centaur in exactly the same manner as infantry embarking or disembarking from the vehicle.
