- The Peltast Alpha may replace its galvanic caster with one item from the *Pistol Weapons* list (see *Codex: Adeptus Mechanicus*).
- The Peltast Alpha may take one of the following:
  - Enhanced data-tether
  - Omnispex
  - One item from the *Melee Weapons* list (see *Codex: Adeptus Mechanicus*)

**ABILITIES**

**Canticles of the Ommissiah** (see *Codex: Adeptus Mechanicus*)

**Omnispex:** Enemy units do not receive the benefit to their saving throws for being in cover against attacks made by a unit that includes a model with an omnispex.

**Enhanced Data-tether:** You can re-roll failed Morale tests for a unit that includes a model with an enhanced data-tether.

**Kyropatris Field Generator:** Models in this unit have a 5+ invulnerable save.

**Titan Guard:** If your army is Battle-forged, this unit can be included in an **ADEPTUS MECHANICUS** Detachment without preventing other units in that Detachment from gaining a forge world dogma (see *Codex: Adeptus Mechanicus*). Note, however, that this unit can never itself benefit from a forge world dogma.

**Blind Barrage:** Once per battle, instead of shooting in the Shooting phase, this unit can fire a blind barrage; until the start of your next Shooting phase, your opponent must subtract 1 from hit rolls for attacks made with ranged weapons that target this unit.
